

Jan. 12, 2022

Due to recent problems in the lab, I would like to setup some important grand rules that are mandatory for our in-person labs this term.

This decision is driven by the need to comply with PHO (Provincial Health Officer) orders related to Covid-19.

While waiting in the corridor before a lab, please:

Form a single line outside the lab and avoid socializing as it disturbs the adjacent labs and classes.

In the lab, please:

Wear your face mask properly at all time. Meaning mask has to cover both mouth and nose at all time.

[Link: https://www.bcit.ca/covid-19/information-for-students/](https://www.bcit.ca/covid-19/information-for-students/)

Since there is no food and drink in the lab allowed, there are no reasons that justify temporary mask removal.

Regards,

Andrew Mokrzycki
