Very organized and streamlined, get to spend less time on looking for stuff.

What did you like best about the instructor's teaching?

Comments
Ed is the amazing professor, period. He is probably one of the best professors I've ever seen. He is not also high-quality, but also dedicated. He really put 100% effort to the course
Excellent organization, recorded lectures, dense and compact lecture notes
I like the recorded video for each lecture, then I can watch them whenever I need to review the lecture. but unfortunately, there are 3 videos without sound.

Which instructional activities were done well?

Comments
very detailed instructions for the lab steps, which are very helpful and practical.

Which instructional activities should be improved?

Comments
It would be better if the instructor posted the lecture articles before the class
