Comments
I very much enjoyed this class. Python is a fun language, and the presentations were actually a great addition.  Thanks for everything, [REDACTED]
Jupyter Notebook was very helpful during lecture. It was a great way to follow along and try out examples and lecture material. Thanks
Please eliminate the final exam. It is very stressful to study for exams during the 4-week term as time is very limited. This would also give us more time for the presentations. I think the presentation, along with the labs would be more beneficial than having an exam. We get to research a library on our own and do some independent learning of material outside of the course curriculum.
Thank you Ed! You are a great instructor. [REDACTED]
